The Project for Construction of Potable Water System in Lower Kurdmashi Village of Ismayilli Region

In order to improve the access to safe water and sanitation services in Lower Kurdmashi village of Ismayilli region, the project will constructed a new water supply system. The total amount of the Japanese Grant Assistance for the said project is **USD 90,646**.

Speech by the Ambassador in Azeri language

Signing of the Grant Contract

Current water supply system cannot provide sufficient water to the residents due to the water leakage from the aging water supply pipe.

Residents harvest rain water for hand-washing.
